In footnote 5 a typo occurred: the signature  $\sigma$  was not correctly assigned. The correct first sentence in footnote 5 should read: “For quark GPDs,  $\sigma = +1(-1)$  denotes antisymmetric (symmetric) behavior under  $x \rightarrow -x$ , and the reverse holds for gluon GPDs.”

The name of one of the coauthors was written incorrectly in the published version: it should read “Kornelija Passek-K.”.
